Live Before I Die

Scarlett Rabe

theres a life i know
that i never lived
started to but failed to grow
we miss the chance to feel this love hear a voice from above im not a holy roller but somtimes i hide this life
cause you cant look forward till you face the past

you maybe one day ill see you walk you threw the hall i wonder what to say like before. lord just give me one more a chance to make this love of myn to live before i die
and i dont even try alone and forget no need to wonder why this little regret. saying in loud im in love and im proud with the girl i see and i no love moves in strange ways that i know
you maybe one day ill see you walk you threw the hall i wonder what to say like before. lord just give me one more a chance to make this love of myn to live before i die
with you on my life maybe one day we will find but for now it has beeen lost maybe one day
you maybe one day ill see you walk you threw the hall i wonder what to say like before. lord just give me one more a chance to make this life of myn to live before i die.
