

That Day

Golden Earring

She left me behind
But in my mind
I hear the word
She said to me
I wonder why
It had to be that day
She said she loves me
And that was easy to see
But why did she run away
I pray that she'll come back
And stay one day
Now I'm walking slowly
Matter on my way
It seems she was lonely
I have no words to say
Where has she gone
Where has she gone
No heart was ever been hurt
Like mine that day
