

Shine Away

Tesla

(Keith, Hannon, Skeoch, Wheat)

All is well, as it could ever be

All is well, as it could ever be

All is well, as it could ever be

All is well, as it could ever, it could ask for

Me, I told myself that I'd get better, and I knew I would

But I said that a thousand times

Said the same in the letters that I wrote to you

Guess you thought it's that same old line

Ooh I know, but the rest of my soul it don't ever need a reason why

Told myself I'd get over it and over you, never will till the day I die

This won't take long, shouldn't take but a minute

I got you right here in my heart

It's only human, it's only natural, it's love or animal

There you are, so far away, but instead I got it right here in my face

Shine away, shine away, one look at you and I can see the light of day

Shine away, shine away, 'cos I'm afraid of what could happen

If you shine my way, don't you shine my way

Now that it's over, I ask myself the reason why

That [was in the time with you on my mind]

Told myself I'd forget about, forget you

Now it's changed it don't feel so right

Ooh I know, but the rest of my soul it don't ever need a reason why

Love you so and always will, love to love you even still

Now there you are, so far away, all the while I got it right here in my face

Shine away, shine away, one look at you and I can see the light of day

Shine away, shine away, 'cos I'm afraid of what could happen

If you shine my way

Shine away, shine away, I got somebody sittin' home, waitin' for me yeah

Shine away, shine away, you make it hard for somebody

Who don't want to play, and I want to play

[Solo] I told myself that I'd get better, and I knew I would

But I said that ten thousand times

Said the same [if time don't make that call for you]

Guess you thought it's that same old line

This won't take long, shouldn't take but a minute

I got you right here in my heart

It's only human, it's only natural, it's love or animal

Now there you are, so far away, all the while I got it right here in my face
Shine away, shine away, one look at you and I can see the light of day
Shine away, shine away, 'cos I'm afraid of what could happen
If you shine my way
Shine away, shine away, I got somebody sittin' home and waitin' for me
Shine away, shine away, shine away, shine away, shine away
Shine away, shine away, shine away, shine away, shine away
