

Carbomb

Pushmonkey

Wanna fight better Do it like a Brooklyn man
with my carbomb I can fix everything
Gonna call me a freak better make your stand
I can solve it with a pipe and nitrogenMy best it rolls around in my headYes I some kind of freak
I don care about you
Yes I some kind of freak
I don care what I doYou can test my carbomb out in your car
turn the key and they won know who you are
I a Detroit freak making you a man
with my carbomb I can be everythingMy best it rolls around in my headYes I some kind of freak
I don care about you
Yes I some kind of freak
I don care what I doYes I some kind of freak
with something to say
I in some kind of hell
And youe going to pay
Now I stand in the street
Excited and low
You twist on the key
I watch you explode
Your life is a flame
a beautiful shine
I made you a freak
I made you my kind
Your flesh is like coal
youe my kind of cool
Youe my kind of freak
It my kind of cruel
Yes I some kind of freakMy best it rolls around in my head
