Night Light

Jessie Ware

Here in the dark, is funny I never feel alone
Do you ?
Here in the shadows, away from the light,
This darkness under which we hide.
Like of ghost that I can not see
You're the shadow behind me.
You'll be my night light, there when I go to sleep
You'll be my night light, baby when I dream.
Under the moonlight, shinning on the sea,
You'll be my night light, whatching over me.
Behind the glass, he'll never leave
Let's make in when I don't deserve to be
Strong when I am here.
I wish he caught how this cold soul, shadow man
Will you come for me?
Like of ghost that I can not see
You're the shadow behind me.

You'll be my night light, there when I go to sleep
You'll be my night light, baby when I dream.
Under the moonlight, shinning on the sea,
You'll be my night light, whatching over me.
Far away for us to go
Tell me where to follow.
I'm happy to be told, happy to be told.
I'm taking it to the parkfield for you to see,
I could be falling to pieces,
So, let me fall, let me fall into your shades!
You'll be my night light, there when I go to sleep
You'll be my night light, baby when I dream.
Under the moonlight, shinning on the sea,
You'll be my night light, whatching over me.
Watching over meeeee
Watching over meee.
