

Back To the Future (Part II)

Dâ€™Angelo and The Vanguard

I just wanna, I just wanna
I just wanna go back now
I just wanna go back now

The seasons may come and your luck may just run out
And all that you'll have is a memory, oh

The seasons may come and your luck may just run out
And all that you'll have is a memory, oh

The seasons may come and your luck may just run out
And all that you'll have is a memory, oh

The seasons may come and your luck may just run out
And all that you'll have is a memory, oh

Used to get real high
Now I'm just gettin' a buzz

Used to get real high
Now I'm just gettin' a buzz

Used to get real high
Now I'm just gettin' a buzz
