

# My Man

## Shannon and The Clams

My man If I, I, I, I should stay  
And see you  
Come away  
That would be fine  
That would be fine If i should dig  
dig you a grave  
I'd dig it  
right next to mine  
wrapped in the hyde  
Wrapped in the hyde  
My man If you, you, you, you  
Should die tonight  
I'd want you  
You to know  
You were my man  
You were my man If you should stay  
One more day  
I'd haunt you  
But dont know what to do  
But cry at your side  
Cry at your side  
If I ever to love again  
It's because of you  
I took you in and made you well  
And you were my man  
If I ever to love again  
It's because of you  
I took you in and made you well  
And you were my man
