

Awake

Martin Courtney

If the past is past its just the point
if we're past the point of trying
and what will be will be
and I just need you here with me I did not mean to interrupt
I did not mean to disturb you
please don't let me wake you up
I'll just be here in the other room You will not find me
wasting my energy
composing a eulogy
know if only
You will not find me
wasting my energy
composing a eulogy
know if only
