Baby Baby My Honey
Thatâ€™s what I wanted to call you from the moment I saw you
Oh Girl You should believe me
If youâ€™re with me, you can forget everything else

Take a look around 1 2 3
Ainâ€™t no girl like you canâ€™t you see
Even when I look all around
Your style comes out naturally
So Sexy Baby Groovy Baby
From now on, only I can see you
Like a cute baby by the water
I canâ€™t take my eyes off you, ma baby

We are gonna drink crazy all night
Every things gonna be all right
Trust everything to my rhythm babe

My lady can you feel it hey
Iâ€™m gonna make you mine
Iâ€™m gonna make you mine
Tell me baby howâ€™re you feeling
Iâ€™m gonna make you mine
Iâ€™m gonna make you mine

I just need you all the time babe
I canâ€™t stop, I want you so intensely
The other girls are nothing
I only need you, donâ€™t look away from me

Ever since our eyes met
Ever since we felt that strange feeling

Baby, thereâ€™s no need to rush,
just follow me girl
The moment I held you
The moment we wanted each other
Baby thereâ€™s no need to hesitate,
just give me your kiss

Baby can I take your legs
I canâ€™t stop, I wanna keep touching you baby
When I see you, canâ€™t control myself
You spread all over me like poison, threatening me

When Iâ€™m looking at you, each minute and
each second are too precious. Please look at me
Are you only gonna play games with me tonight?
Is this just having a something?
Being something like mine, something like yours?
Something like yours, my heart is all yours
Everything is all yours. God I need to make you mine
I will have you before the night is over

We are gonna drink crazy all night
Every things gonna be all right
Trust everything to my rhythm babe

My lady can you feel it hey
Iâ€™m gonna make you mine
Iâ€™m gonna make you mine
Tell me baby howâ€™re you feeling
Iâ€™m gonna make you mine
Iâ€™m gonna make you mine

I just need you all the time babe
I canâ€™t stop, I want you so intensely
The other girls are nothing
I only need you, donâ€™t look away from me

Ever since our eyes met
Ever since we felt that strange feeling
Baby, thereâ€™s no need to rush,
just follow me girl
The moment I held you
The moment we wanted each other
Baby thereâ€™s no need to hesitate,
just give me your kiss

I just need you all the time babe
I canâ€™t stop, I want you so intensely
The other girls are nothing
I only need you, donâ€™t look away from me

Ever since our eyes met
Ever since we felt that strange feeling
Baby, thereâ€™s no need to rush,
just follow me girl
The moment I held you
The moment we wanted each other
Baby thereâ€™s no need to hesitate,
