

Back In Time

Keane

I have got time to kill
I am not leaving for the moment anymore
I don't wanna wake up
I have got time to kill
I am not leaving for the future anymore I don't wanna wake
I don't wanna wake up
She goes back in time
She goes back in time
She goes back in time Time I wait for you
Hibernating hoping life will start again
Pedal in the water
The days all seem the same
I dreamed by day I shut light out, I escape I don't wanna wake
I don't wanna wake up
She goes back in time
She goes back in time
She goes back in time
She goes back in time
She goes back in time
She goes back in time Something backwards I forget, I forget
Time has wrapped his drowsy arms around my neck
Don't wanna wake up
Don't wanna wake up She goes back in time
She goes back in time
She goes back in time
She goes back in time
She goes back in time
She goes back in time
She goes back in time
And back again
And back again
