

# Anymore True

## Feel Never Real

Today something has somehow changed  
We feel it as we are rearranged  
Were falling to pieces  
We cry from secrets  
Just to wave; our memories remain

When love isn't something we do  
It never is anymore untrue  
Were lying  
from cheating  
were also feeling  
this heartache we can't fake through

Shattered Glass my hearts replaced  
My rusted hearts on ??????  
to imagine the love that I have shared  
its hard to imagine  
I could believe could be so cold

When love isn't something we do  
It never is anymore untrue  
Were lying  
from cheating  
were also feeling  
this heartache we cant fake through

I've bled for so long; That I  
Cannot even remember why I left  
So how can you say to me  
I HAVE CHANGED

When love isn't something we do  
It never is anymore untrue  
Were lying  
from cheating  
were also feeling  
this heartache we cant fake through  
When love isn't something we do  
It never is anymore untrue  
Were lying

from cheating  
were also feeling  
this heartache we cant fake through
