

She and I

[Toby Keith](#)

She and I live in our own little world
Don't worry about the world outsideShe and I agree
She and I lead a perfectly normal life
Ah but just because we aren't often seen socially
People think we've got something to hide.
But all our friends know we're just a little old fashionedOh ain't that great
Aint it fine
To have a love someone that others can't find
Aint it wonderful to know all we ever need is just the two of us
So wonderfulShe and I share with every body else
The same wants, needs and desires
She and I save
She and I pay on everything we acquireAh but just because we aren't often seen separately
People think we live one life.
Its hard for them to see how anyone could be as close as
