

People

Superpitcher

We don't need people
We don't need people
We don't need people
No, we don't need, no
People We don't need people to be alone
We are together on our own
We don't need people
No, we don't need, no
People No... no people We don't need people
No, we don't need, no
People
We don't need people to be alone
We are together on our own
We are together all alone
We are together on our own Together...
Together, all alone
Together, on our own All alone...
On our own...
