## **Happy**

## **Medina**

Can you see the children running around
I'm imagining the house that we're gonna build
Damn nights carry out on a cloud
Red wine in a glas on the top hillsI'll tell it like it is
Cause I don't wanna waste another minute

Let me put it down like this

I've been afraid to say how deep I mean itCause you give me (joy, joy, joy)

And you feel me (happy, happy, happy)

When you give me (joy, joy, joy)

So keep on giving it (happy, happy, happy)I'm in love, love, love

I'm in love, love, love

I'm in love, love, love

I'm in loveGoing low when we drive in your car

I know you like it when it's hot with the top down

Crazy fantasies are not too hot

That's the picture of the future in my heartI'll tell it like it is

Cause I don't wanna waste another minute

Let me put it down like this

I've been afraid to say how deep I mean itCause you give me (joy, joy, joy)

And you feel me (happy, happy, happy)

When you give me (joy, joy, joy)

So keep on giving it (happy, happy, happy)I'm in love, love, love

I'm in love, love, love

I'm in love, love, love

I'm in loveHapp, happ, happy

Joy, joy, joyI don't wanna run

Cause you make me come of

Everytime we touch

Did I say too much

They way you make me sway

You're my greatest fate

Want you night and day

For you I'm stepping upI don't wanna run

Cause you make me come of

Everytime we touch

Did I say too much

They way you make me sway

You're my greatest fate

Want you night and dayCause you give me (joy, joy, joy)

And you feel me (happy, happy, happy)
When you give me (joy, joy, joy)
So keep on giving it (happy, happy, happy)I'm in love, love, love
I'm in love, love, love
I'm in love
