

# Fast and Loud

## Razor

Metal fury, metal sound  
We'll rock this place right to the ground  
Pounding drums, pounding bass  
The look of anger in your face  
Lights and action hit the floor  
Speed and power, give me more  
Molten mayhem, tempered steel  
Love to hear the guitar squeal  
Fast and loud  
Loud and proud  
Gotta rock hard  
To please the crowd  
Fast and loud  
Power trip  
Now's the time  
To let it rip!  
Spikes and leather fill the hall  
Really want to please you all  
Armoured fists, i see them shake  
How much can our bodies take?  
Sound of metal in the air  
Time for you to get your share  
Metal fans fill our dreams  
Love to hear your metal screams!
