Just Remember

Nancy Wilson

Just remember I'm in love with you
Just remember that you'll love me too
We'd be foolish letting troubles come between us
We'd be foolish when we know, we love each other soJust remember love is give and take
Smiling each mistake for the other's sake
Hope I never make you blue
But if I ever do, just remember that I love youJust remember love is give and take
Smiling each mistake for the other's sake
Hope I never make you blue
But if I ever do, just remember that I love you
