

# Schooldays

## The Kinks

The bell rings  
And all things are calling  
The days past  
The play's cast  
Remember  
September  
When we were  
Together, together, together Schooldays, the happy days  
When we were going nowhere  
Schootime, the happy time  
When we were feeling no care Schooldays when three said  
That we'd better be friends forever  
How long is ever isn't it strange  
Schooldays together why do they change  
How long is ever isn't it strange Did kites fly  
And I spy  
And you cry to run fast  
Or come last  
You know how we made vows  
They're gone now  
We made friends, we broke friends  
No more friends Schooldays, the happy days  
When we were going nowhere  
Schootime, the happy time  
When we were feeling no care How long is ever isn't it strange  
Schooldays together why do they change  
How long is ever isn't it strange  
Schooldays together why do they change  
How long is ever isn't it strange  
Schooldays together why do they change How long is ever isn't it strange  
Schooldays together why do they change  
How long is ever isn't it strange  
Schooldays together why do they change  
How long is ever isn't it strange  
Schooldays together why do they change Remember  
Remember when we  
Together  
Went to the sea Seagull's scream and pink ice cream  
And the deep blue sky and the waves seem high

And golden sand and the town  
Brass band plays onWait for me  
Wait for us always  
Wait for me  
Wait for us to comeMister Watson wants to see you  
In the master's room  
It's about the work you should have done  
And I think you must go nowWe may go  
Go, go, goHow long is ever isn't it strange  
Schooldays together why do they change  
How long is ever isn't it strange  
Schooldays together why do they change  
How long is ever isn't it strange  
Schooldays together why do they change  
How long is ever isn't it strange  
Schooldays together why do they change
