

Vague Suspicions

[Esperanza Spalding](#)

On the radio I knew they wont be talking about these lies
That were stealing made this wall and he shall pray
When I have misjudged and blew him away
Strangers sing there were faceless numbers ., we all end
Long strike leave civilians dead hold up that fireMy god
Maybe our heart is seized with . for the death and fake suspicions creeping to your head
And my part I have won and what is gone full
