Chicosci Paris LyricsCould I be so affected?
Will I stay on your mind?
Why am I so infected?
The way that we shineSpeak now or forever fall to pieces
I took you so fast
The way we are is just a movie sequence
I took you soI can't ever deny that this
This gift you won't hide
This scene that we were in together
The story of our livesBroken, lover
Tears flow, endless rivers
One love, one heart
Still we won't severSpeak now or forever fall into pieces
I took you so fast
The way we are is just a movie sequence
I took you so fast
Speak now or forever fall into pieces
I took you so fast
The way we are is just a movie sequence
I took you so fastCould I be so affected?
Will I stay on your mind?
Why am I so infected?
The way that we shineTwisting, turning
As we move further
My own prayer
We will both emergeSpeak now or forever fall to pieces
I took you so fast
The way we are is just a movie sequence
I took you so fastYou and I step into the light
I'm so graced
That I have this
You and I step into the light
I'm so graced
That I have this
