Broken People

Brielle Rathbun & Colin Jeffress

When I watch from afar,
Even just a prick upon your skin where you bleed,
My body scars

Flames come from sparks,
Before it all burns down I trap these sounds,
Keep each memory in a jar.

I don't,
Know why we tried so hard,
To understand somethings we can't fix ourselves,
They can't be mend by hand

Though we kissed,
How we tried to forget about,
We actually loved,
So we just stood in regret til we both gave up.

Aba aba broken (6x)

Some broken people get lost in love,
broken people

Say that love was good,
I don't have to be scared, be prepared, to
feel it like I should

Go and take every dream,
My heart goes up and down and hit the ground,
not as pretty as it seems.

I don't,
Know why we tried so hard,
To understand somethings you can't fix yourself,
They can't be mend by hand

Though we kissed,
How we tried to forget about,

We actually loved,
So we just stood in regret til we both gave up.

Aba aba broken (6x)

Some broken people get lost in love,
broken people

Don't stop breathing
Don't stop leaving
Just keep thinking
"I just wanna break."

Don't stop breathing
Don't stop believing
Just keep thinking
"I just wanna break."

Cause I'm sick of breathing
Sick of leaving
Sick of thinking
"I just wanna break."

OOOO

I don't,
Know why i tried so hard,
To understand somethings i can't fix myself,
They can't be mend by hand

Though we kissed,
How we tried to forget about,
We actually loved,
So i just stood in regret til I gave up.

broken people
