Midnight Lovers

Matthew Dear

If I grab you by the hand
Can I take you for a walk, young girl
I will kiss your neck
This won't be like last timeTell me something special
Between my mind and evening
Don't give up on my bad luck
It's all I got with me[Chorus]
I can see the future shine
This is the beginning of time
We can make a mountain collapse to the sea
I am the beginning of meIf temptation runs you down
And my lust is conservation
Lie chains around my throat
Let them rust for my salvationWhisper in my ears
Share with me your wisdom
I won't tell about your smell
We can join in with them[Chorus]
