

Pushing On A Pull Door

For King & Country

If hope is what you're after
I can take it and turn it into rain
Your tears become laughter
I will catch them and turn them back again
Yeah I will catch them and twist them back again
When you're upside down, then you see it all
That you spend all your time pushing on a pull door
You made a plan
You think you're in control
Yeah, you're flying
But you're way too high to fall
And hey man
Check around the corner
Because it's coming
Here's your wakeup call
Don't hear Me coming?
I'm your wakeup call
When you're upside down, then you see it all
Everything's the wrong way around but clearer than before

When you're upside down, then you see it all
That you spend all your time pushing on a pull door
I will shake you
I will make your shattered dreams unwind
Because it's only when it comes to pieces
Only then this time increases
You will find the piece that you've been dying for
You'll realize that all this time
You've been pushing on a pull door
You've been pushing on a pull door
Upside down, then you see it all
Everything's the wrong way around but clearer than before
Oh you know, when you're upside down, then you see it all
That you spend all your time pushing on a pull door
When you're upside down, then you see it all
Everything's the wrong way around but clearer than before
When you're upside down, then you see it all
That you spend all your time pushing on a pull door
Hey, pushing on a pull door

You've been pushing on a pull door
