

Michigan State

Devendra Banhart

My friend has my favorite teeth
They bend backwards when she breathes and it whistles
Sweetness is all sweetness was
Bees are black eyed birds that buzzMy love has my favorite ears
They lean forward when she hears
Well, evil is all evil was
Bees are blue eyed knees that buzzAnd I said, Oh, Michigan, Michigan state
How I'd love to live in you
I've never been to Michigan state
Still I want to live in youOh, you can't speak without your tongue
Don't try to drown without your lungs
Well, my snail has my favorite slow
Shell helps the snail still the skin lays lowAnd if my snail has my favorite slow
Then my cold has my favorite snow
But if my snail's cold and comes to a halt
Then my sea has my favorite saltThe salt keeps the sea from feeling sweet
And my toes have my favorite feet
And if I sweat salt
And the Earth sweats heatOh Michigan, Michigan state
How I'd loved to live in you
I've never been to Michigan state
Still, I'd love to live in you, Michigan st-st-state
