

Girls

Nizlopi

They go for you with their love and fear
They go being and never disappear
If you rub yourself along now
You'll get down to their kind of emotion
Straight to your heart
Sweet doll
Straight to your heart
Gotta love and forgive
Or you can't breathe
Gotta search and be with
Or you can't breathe
I got something to give
Before I leave
I can never run back
I'm smothered in, memories of you are too
What is given back, we can't unglue
All this sticks to me, some days sweet like honey
Some days tart like Marmite
Sticks to your heart
Sweet doll
Straight to your heart
Gotta love and forgive
Or you can't breathe
Gotta search and be with
Or you can't breathe
I got something to give
Before I leave
I can never run back
The croft, the croft
Old lofts and searching
The path, the path
Of always searching
All from the heart
All from the need
All from the love
All from the greed
The croft, the croft
Old lofts and searching
Right from the
Right from the heart
Old from the need
Old from the love
Old from the greed
I tell you this old heart is covered in glue
I can never run back or forget you
I tell you this old heart is covered in glue
I could never run back or forget you
Gotta love and forgive
Or you can't breathe
Gotta search and be with
Or you can't breathe
I got something to give
Before I leave

I can never run back
