Reputation Calls

H2O

Know all about you but are you just a name
You like the feeling a reputation brings
Some say your violent and people are afraid
I say you're silent and holding back the pain
Inside - you just can't live a lie
Inside - just can't live a lieReputation calls and now it follows you
But what about the changes you been going through
One of these days the things they say
Won't mean the same as before then when reputation calls
You don't have to answer anymoreOne of these days when you don't feel so hard
One of these days when you put down your guard
Heart hanging out for the world to see
When standing alone whole will you be
