Stand Up

Steel Dragon

Stand up and shoutStand up and shout
Stand up, stand up
Stand up and let it out
Stand up and shout
Stand up, stand up, stand upI know what you want and what you're thinking
I can free your sexuality
No one's ever tortured you with pleasure
Pleasure's all you'll ever feel from meStand up and shout
Stand up, stand up
Stand up and let it out
Stand up and shout
Stand up, stand up, stand upI just want to see you in the garden
Dressed up as you came into this world
Shining through the candle of deception
Lighting up the underlying girlStand up and shout
Stand up, stand up
Stand up and let it out
Stand up and shout
Stand up, stand up, stand upStand up and shoutStand up and shout
Stand up, stand up
Stand up and let it out
Stand up and shout
Stand up, stand up, stand up
