Together Forever

Johnny Van Zant

I met you on a cold winter night
I caught a smile in the light
And somehow it seemed I was dreamin'
The moon set the picture rightNow the dream is gone
And suddenly I'm all alone
And I want you to understand I need you back again
'Cause without you I'm just another lonely manA fire was burning for you tonight
I lost control, it's just too much to fight
I hope it's enough, all I can give is my love
Forever together, we will liveAnd I hope it's enough
'Cause it's all I've got to give
Ooh, it's all I've got to giveYou flew into New York City on a morning flight
I guess I felt that maybe you were coming
Couldn't sleep all night and it's hard to believe
That you're finally in my armsAnd I think you should understand
I've got no certain plans
But without you girl
I'm just another lonely manA fire was burning for you tonight
I lost control, it's just too much to fight
I hope it's enough, all I can give is my love
Forever together, we will liveAnd I hope it's enough
'Cause it's all I've got to give
It's all I've got to give
Ooh, it's all I've got to giveOh, a fire was burning for you tonight
I lost control, it's just too much to fight
I hope it's enough, all I can give is my love
Forever together, we will liveAnd I hope it's enough
'Cause it's all I've got to give
It's all I've got to give
Ooh, it's all I've got to giveTogether, we will live
I need to hold you in my arms all my life
It's all I've got to give
Together we will live, together we will live
