

Little man

Gluecifer

Little man, youre very small
Little man, youre very small
No ones gonna hear your call
No ones gonna hear your call Little man, your eyes are red
Little man, your eyes are red
Wishing you were cold and dead
Wishing you were cold and dead No one's gonna play your game
No one's gonna play your game
Nothing changes, its the same
Nothing changes, its the same Little man, youre very small
No ones gonna hear your call
Looking through those eyes so red
Wishing you were cold and dead No one's gonna play your game
No one's gonna play your game
Nothing changes, its the same
Nothing changes, its the same
