

# Embrace

## Bee Gees

I'm holdin' you I don't know what you want  
I don't hear what you said  
Truth behind the lies  
'Cause I can't see what's in your head And spread your wings and fly  
Out in a brave new world  
Let this be my prayer  
To keep you safe when I'm not there Can we love and live apart?  
I don't know, no, I don't know  
How can we divide the heart?  
I don't know, no, I don't know And when the night falls, and when the sky falls  
I long for your embrace  
And in the cold night, under the street light  
I long for your embrace Livin' separate lives  
I have faith in you, away from you  
Like a lonely child  
I will hang on every word  
Embrace Through the mists of time  
Lovers can be friends  
The power of the human heart  
The secrets in the souls of men All my blessings in disguise  
I don't know, no, I don't know  
Reunited we will rise  
I don't know, no, I don't know And when the night falls, and when the sky falls  
I long for your embrace  
And in the cold night, under the street light  
I long for your embrace Livin' separate lives  
I have faith in you, away from you  
Like a lonely child  
I will hang on every word And when the night falls, and when the sky falls  
I long for your embrace  
Another daybreak, another heartache  
I long for your embrace Livin' separate lives  
Away from you  
Embrace  
Embrace the lonely, lonely, lonely, lonely, lonely, lonely life  
Lonely days and nights  
We can live our life  
Embrace  
Embrace with our separate lives

Embrace, embrace  
The lonely, lonely lives  
Lonely days and nights  
I will never send away  
Embrace, embrace  
The lonely, lonely lives  
Embrace the child inside  
The lonely, lonely lives
