

# Convince Me

Lucinda Williams

Please, please convince me  
Please, please, please convince me  
Tell me so it makes sense to me  
How much better is I wanna be And please, please, please convince me  
Please, please, please convince me  
Tell me so I understand  
Talk to me and hold my hand And please, please, please convince me  
Please, please, please convince me  
Tell me everything's gonna be alright  
Even if it takes our lives, please Please, please convince me  
Please, please, please convince me  
I've been troubled and I've been blue  
Tell me something good, tell me something new Please, please, please convince me  
Please, please, please convince me  
Tell me what it's all about  
Tell me things will work out And please, please, please convince me  
Please, please, please convince me  
The whole wide world is falling apart  
The whole wide world bought our broken heart So please, please convince me  
Please, please, please convince me  
Please, please, please convince me  
Please, please, please convince me Convince me, baby, convince me, baby  
Convince me, baby, convince me, baby  
Please convince me, baby, convince me, baby  
Convince me, baby, convince me, baby
