

H Model

Jimmy Eat World

Straight outta Phoenix boys, stay up late and listen in
Trading insult for your time it breaks my heart in half
To see her jumping up and down screaming
"Cash in honey, cash in now"
Lift your hands up slow if only you could see yourself
Everything you are imitate and water down
If just because you'll never have your politics with perfect means
Doesn't mean you talk the round and round
Forsdale's syringe is wearing so thin
Lift your hands up slow if only you could see yourself
Everything we are imitate and water down
They'll never know your world no matter how they try
It's your world never know, they'll never know your world
(It's above us)
