

Possession

Aderlating

I want to crawl inside your soul
 Nestle in your brain
 Stand you on your head
 Crouch you on all fours
Oh, I will walk among your dreams
 When you think you are asleep
 The invitation of your mind
 Beckons me to your sin
All the things that you say and feel
 For I will be inside your speech
 Say the words you must not say
 For I will lurk inside your heart
 If you can take it and survive
 As it must ever be, oppression
It's ever been, through my oppressive black sleeping
 It has always been, possession
 As it must always be
All the things that you say and feel

 Become possession, riding
 Possession, riding you hard
 Possession, riding you on, yeah
Well I will worm inside your skull
 Make you beg to be my whore
 Do my bidding day and night
 If you can take it and survive
 As it must ever be, opppression
It's ever been, through my oppressive black sleeping
 It has always been possession
 As it must always be
All the things that you say and feel
 Become possession, riding
 Possession, riding you hard
 Possession, riding onto you
 Possession, riding
 Possession, riding you hard
 Possession, riding you on, yeah
