

# How Do You Do

## Natasha Bedingfield

If it's weird for girls to give guys flowers  
Then maybe that's a reason too  
You're not climbing up my ivory tower  
So, I'm coming down for you  
Is it wrong to write our names in love hearts  
In the dust that's on the car you drive?  
Dropping hints can only get you so far  
When you don't know that I'm alive  
Is it wrong to be the instigator?  
Is it wrong, is it wrong?  
Is it bad to be the move maker? No  
Guess, I gotta be the first to say, to say, to say  
How do you do? If you won't say it, I will  
How do you do? I'm really pleased to meet you  
How do you do? Gotta say it how I feel it  
Say it or I will  
When you're hanging at the point of stalemate  
It's not the time to bite your tongue  
So at the risk of looking really stupid  
I'm gonna take the plunge  
Is it wrong to be the instigator? No  
Is it bad to be the move maker? No  
Guess, I gotta be the first  
To say, to say, to say, to say  
How do you do? If you won't say it, I will  
How do you do? I'm really pleased to meet you  
How do you do? Gotta say it how I feel it  
Say it or I will, say it or I will, say it or I will  
It's not good enough just to sit around drinking tea  
Touching all your weather, exchanging pleasantries  
I've been too reserved to circumspect  
Sick of crossing words, now, I wanna connect  
How do you do? If you won't say it, I will  
How do you do? I'm really pleased to meet you  
How do you do? Gotta say it how I feel it  
Say it or I will, oh, say it or I will, say it or I will  
Gotta say it how I feel it, say it or I will, say it or I will  
How do you do? If you won't say it, I will  
How do you do? I'm really pleased to meet you  
How do you do? Gotta say it how I feel it  
Say it or I will
