It's Nothing

Insect Guide

Verse 1:
Come on quickly catch me
You really are the best thing that has happened to me since 1983
You buying suvineers of a Hollywood fuse
kick our feet up, watch the world fall.
Chorus:
You say its nothing uninvited something nothing ever stays forever
When you gonna give me a call
Because you dont know what to do, you follow men in suits who tell you Everything is all cool.
Verse 2:
Dont act dumb, I know where you're coming from
From the magazines oh you demographic teen
Their statistics are your sickness
Oh I need a witness
Why can't anybody else, see?
Chorus:
You say its nothing uninvited something nothing ever stays forever

When you goona give me a call
Because you dont know what to do, you follow men in suits, who tell you Everything is all cool
Verse 3:
I want more than this
Something without tricks
Something of my own
I want you to see
Something more than dreams
That ends with being asleep, by the TV screen
coz they flash and gleam
Make nothing what it seems
Is this really what we,
wanted,
after all?
