

# Knucklehead

## Hoopsnake

Fancy Apple lap top cost 5 grand  
Fresh girl in a T-shirt still looks best  
Travel to a sunny quiet land  
Layin' on the beach I miss my pestsLife's turning up the pressure  
It's makin' me aggressive  
The music sounds like dead ham  
The DJ is a con manHe's sayin', "I, I, I want something from you  
I, I, I want something from you  
I, I, I want something from you  
Knucklehead, what can you do?  
What can you do?"One day I went out to buy a truck  
I found one that looked so huge and big  
Once I got that sucker on the road  
I was looking down at everythingAnd I really liked that  
Everyone obeyed me  
I thought this is power  
Like that religious hour  
When the preacher says"I, I, I want something from you  
I, I, I want something from you  
I, I, I want something from you  
Knucklehead, what can you do?""I, I, I want something from you  
I, I, I want something from you  
I, I, I want something from you  
Knucklehead, what can you do?"Something from you, something from you  
Something from you, something from you  
Something from you, something from you  
Something from you, something from youOnce the phone starts ringing I stop thinking  
Sittin' at the TV I'm just blinking  
Go to the computer and I'm punching  
What's this information that I'm munchingThe leader and the followers  
The rock star and the model  
The general and the perverts  
They're poking me where it hurts  
OuchSaid, I, I, I want something from you  
I, I, I want something from you  
I, I, I want something from you  
Knucklehead, what can you do?I, I, I want something from you  
I, I, I want something from you  
I, I, I want something from you

Knucklehead, what can you do?I, I, I want something from you  
I, I, I want something from you  
I, I, I want something from you  
Knucklehead, what can you do?I, I, I want something from you  
I, I, I want something from you  
I, I, I want something from you  
Knucklehead, what can you do?
