

Bulldozer (aus "Sie nannten ih

Oliver Onions

You can see a mountain here comes bulldozers
You can see a cloud of fists and dust
It's quite clear why his name is just bulldozer
It's enough to see him once again Where's he coming from
No one knows
And nobody would ask such a thing
No one knows
And nobody would ask such a thing. You can see a mountain here comes bulldozers
You can see a cloud of fists and dust
He won't be the first one to look for glory
But when he's involved he won't deny Where's he coming from
No one knows
And nobody would ask such a thing
No one knows
And nobody would ask such a thing.
