Going for My Lungs

The Fold

You held me closer than you ever have before
And its all that I can do, try to be everything you need
Im sorry if it seems that I have let you down
I thought that I was looking out for usIn the quietness of mind
We both know its true
Im going for my lungs these days
Going for it now
(Going for it now)On nights like these I wish Id never left your side
You are beautiful dear, beautiful tonight
(Beautiful dear)
Im sorry if it seems that I have let you down
I thought that I was looking out for usIn the quietness of mind
We both know its true
Im going for my lungs these days
Going for it nowQuietness of mind
We both know its true
Im going for my lungs these days
Going for it now
(Going for it now)Get out of my dreams, get into my armsI miss that smile on your face
(Get out of my dreams)
I miss that smile on your face
(Get into my arms)(I am with you now)
I miss that smile on your face
(Get out of my dreams)
(I am with you now)
I miss that smile on your face
(Get into my arms)I am with you now
