

# Fanfare

Peter Frampton

Sun and fresh air starts a fanfare  
Playing in my heart  
Melody come back to me and stay I can see you, I'm not near you  
Talking in my sleep  
I'll be happy if you stay, stay awhile Well I got no home, have to roam around  
Loving you is worth more than this pound  
Like to shout, maybe hit the wall  
Lovin' used to make me feel so small, so small Please pull me through I'd do the same for you  
Never let you down  
You're the reason that I carry on, carry on When I worry then you hurry  
Just to make me smile  
I'll be happy if you stay, stay awhile Well I'm movin' out, got no doubt you'll see  
Lovin' me won't give you time to breathe  
Like to shout, maybe hit the wall  
Lovin' used to make me feel so small, so small When I worry then you hurry  
Just to make me smile  
I'll be happy if stay awhile, stay awhile Sun and fresh air starts a fanfare  
Playing in my heart  
Melody, come back to me and stay  
Ooh melody come back to me  
Oh back to me and stay
