

# The Right Stuff

## Monster Magnet

I don't feel fear or panic  
And nothing brings me down  
I'm an aerospace age warrior  
I can fly sideways through sound  
My reflexes and reactions  
Are as fast as a machine I'm the right stuff baby, the right stuff  
The right stuff baby, the right stuff  
The right stuff baby, the right stuff  
Watch my trail When the dial needle flickers  
Around mach one or two  
And something happens suddenly  
I know just what to do  
My fist move without feeling  
And my feet like lightning too I'm the right stuff baby, the right stuff  
The right stuff baby, the right stuff  
The right stuff baby, the right stuff  
Watch my trail My nerves are made of steel  
My nerves are made of steel  
My nerves are made of steel  
My nerves are made of steel My nerves are made of steel  
My nerves are made of steel  
My nerves are made of steel  
My nerves are made of steel  
My nerves are made of steel And what would freak the average man  
Would not affect my heart  
Not even if this DC jet  
Should shake itself apart The right stuff baby, the right stuff  
The right stuff baby, the right stuff  
The right stuff baby, the right stuff  
Watch my trail
