

Fluorescent

Gwen Stefani

Im not sayin' nothin' you dont already know
You know youre too delicious, more than I can handle
Lyn around late at night, so luscious that I ache
Baby, whyd you fall asleep? Im still awakeIm in love, in love with a dream
My Valentines gone and broke my wings
Ill see in time, I feel a bit weak
You better be right 'cause you promised meI must have lost my mind
I cant believe youre still inside my bed
I nearly walked away
I didnt think wed still be rollinDressin' up in your love is a dangerous thing
My sexy super lovers got a real bad sting
Baby, didnt want no trouble, this is more than I can afford
I cant help myself, keep comin' back for more
For more, cant help comin' back for moreIm in love, in love with a dream
My Valentines gone and broke my wings
Ill see in time, I feel a bit weak
You better be right 'cause you promised meI must have lost my mind
I cant believe youre still inside my bed
I nearly walked away
I didnt think wed still be rollinAnd as I watch you sleep in the dim light
I close my eyes and pray
Another fluorescent night
Yeah, you and ILate night lovers kickin in the covers
Dont need no one but you and I
'Cause every day's a weekend, forget what we were thinkin
Another sweet fluorescent nightI must have lost my mind
I cant believe youre still inside my bed
I nearly walked away
I didnt think wed still be rollinAnd as I watch you sleep in the dim light
I close my eyes and pray
Another fluorescent night
Yeah, you and I
