# Shine

## Smoke or Fire

The politicians have a tight hold, they learned a trick from kings
To let the people fight amongst themselves to hide their negligence
But something tells me that the end is coming sooner than we all know, I'd put a bet on it
While the people fight amongst themselves it's all coming back, it's all coming back, it's all coming backThe government has got a tight hold, a bunch of crooks and thieves
They let the people steal amongst themselves while they own everything
But in the end I know the people all will bring this to a standstill, I'd put a bet on it
While the people steal amongst themselves it's all coming back, it's all coming back, it's all coming backWe the people were forced to sign
An execution of human rights
Indoctrination is what was meant
Infuse a class war to keep relations strainedGiven the chance, we would shine
We would shine
We would shine
We would shineGiven the chance, we would shine
We would shine
Given the chance, we would shine
