

# Life Is A Fear (Last.fm Lightship95 Series)

## Editors

[Chorus]

Life is a fear of falling

Life is a fear of falling through

All the cracks[Verse 1]

Wait around here long enough, you'll see

Another junction, line up and lay down for me

You fall wonderfully

If I question everything you say

Another answer crumbles the birth of my day

It's when you were here[Pre-Chorus]

You, calling out a name

You, swimming unleashed through a dream[Chorus]

Life is a fear of falling

Life is a fear of falling through

All the cracks[Verse 2]

Every siren lost in my lullaby

Every heartbeat functioning thrown to the night

I'm quenched in your light

See the floor rising through a dream

Forgotten thoughts lost in a memorable theme

And soaked to the skin[Pre-Chorus]

You, calling out a name

You, swimming unleashed through a dream[Chorus]

Life is a fear of falling

Life is a fear of falling through

All the cracks[Bridge]

And I wanted to tell you that

And I wanted to tell you that[Pre-Chorus]

You, calling out a name, oh

You, swimming unleashed through a dream[Chorus]

Life is a fear of falling

Life is a fear of falling through

All the cracks[Chorus]

Life is a fear of falling

Life is a fear of falling through

All the cracks
