

# Falling

## Staind

You in your shell  
Are you waiting for someone to rescue you  
From yourself  
Don't be disappointed when no one comes Don't blame me you didn't get it  
Don't blame me you didn't get it  
Don't blame me you didn't get it I already told you that falling is easy  
It's getting back up that becomes the problem  
If you don't believe you can find a way out  
You become the problem You all alone  
Are you waiting for someone to make you whole  
Can't you see  
Aren't you tired of this dysfunctional routine Don't blame me you didn't get it  
Don't blame me you didn't get it  
Don't blame me you didn't get it I already told you that falling is easy  
It's getting back up that becomes the problem  
If you don't believe you can find a way out  
You become the problem I already told you that falling is easy  
It's getting back up that becomes the problem  
Becomes the problem  
If you don't believe you can find a way out  
You become the problem  
Become the problem Falling is easy  
It's getting back up that becomes the problem  
Becomes the problem  
And if you believe you can find a way out  
Then you've solved the problem  
You've solved your problem
