One In This World

Haylie Duff

I've been searching for a, a heart that needs a heart like mine
I've been reaching for a hand that understands
I've been waiting for someone that I can love that loves me
Loves me for the one that I amSomeone to hold me when I'm lonely
Someone to keep the rain awayThere's one in this world for everyone
One heart, one soul to walk beside you
One in this life to share your love
One touch to touch the heart inside youWanna reach for each night
Wanna trust with your life, that's what I believe
You're the one, you're the one in this world for meI've been praying that someone like you would rescue me
I've been hoping that I'd find my way to you
I've been dreaming that somehow I'd finally find somebody
Somebody to make my dreams come trueSomeone to hold me when I'm lonely
Someone to give my whole world toThere's one in this world for everyone
One heart, one soul to walk beside you
One in this life to share your love
One touch to touch the heart inside youWanna reach for each night
Wanna trust with your life, that's what I believe
You're the one, you're the one in this world for meSomeone to hold me when I'm lonely
Someone to tell my secrets to
Someone who's living for me only
Someone to give my whole world to
They say, they say, they say, they sayOne in this world for everyone
One heart, one soul to walk beside you
One in this life to share your love
One touch to touch the heart inside youWanna reach for each night
Wanna trust with your life, that's what I believe
You're the one, you're the one in this world for me
You're the one, you're the one in this world for me
You're the one
