# Kiss Goodnight

## Michael McLardy

I'm not gonna sleep till 8 in the morning
way too many thoughts in my head
I could lie awake and drive myself crazy
or go back to see you instead
Its late at night we had a fight and i cant sleep its not alright
Chorus: Ive gotta go by your place so we can make up face to face
'cause i know that nothings right until i get my kiss goodnight
Over thinking rehearsing my lines
tryina figure out what to say

I missed a few stop signs its 3 in the morning and i dont really care whos to blame
'cause things we said stuck in my head
its time we put this thing to bed
Chorus
Its a little thing with you and me
but it means everything
its all i need to find my peace of mind and dream
Chorus
