

You Got The Deal

38 Special

I lived my life one way too long
Deal me straight, I can't go wrong
A gamblers fate's in the cards he takes
And now I know it's just your mistake.

Don't know the game but you got the deal
Don't know the game but you got the deal
You got the deal

Left our dreams on a lonely road
Come back here with a heavy load
Fight our best when the chips are down
You go your way and I'll win this round

Don't know the game but you got the deal
Don't know the game but you got the deal

You live your life for the dollar sign
And all that you make, you're just buying time
But time takes it's toll, it don't care who you are
You know you're marked for life with your empty heart

Don't know the game but you got the deal
Don't know the game but you got the deal
Whoa-oh whoa I don't know the game but you got the deal
Don't know the game but you got the deal
