Normal Love

Champagne Jam

Normal love
I need some normal love
Not a sickness, nor madness
Just an everyday affair
But just like an old fashion love song
These days its rare
Outer space
These days thats commonplace
If its storybook, or strange
Its the passion of the day
Caught up in that old cosmic circle
So out of place
Normal love
Make it sweet, make it simple
Ooh, thats what I need
Just a smile, just a kiss
Normalness
What a twist
I need your normalness
Id forget you if I could
And normally I would
But just like an old family portrait, youre one of a kind
And in these crazy time I need, your normal love
