

# Rescue

## Yuna

She thinks she's all alone  
And all her hopes are gone  
And so I wrote this song  
So she can move alone. But things work bad  
She was in despair  
Her things work bad  
And you were not everything But things work bad  
She came up for air  
She said a little prayer, she found herself  
Chorus:  
Yeah, she's got light in her face  
She don't need no rescue and she's okay.  
Yeah, she's got a laugh in her face  
She don't need no rescue and she's okay.  
No SOS me then rescue when she's finally there  
No SOS me then rescue when she's finally there, yeah  
She's got a laugh in her face,  
She don't need no rescue and she's okay She look into the sky  
And all her tars are dry  
She kiss her fears goodbye  
She's gonna be alright. But things work bad  
It was .. in repair  
She was scared, she couldn't handle it.  
The things were bad, but now she's glad  
Can't you tell, she's walking on air? Chorus:  
Yeah, she's got light in her face  
She don't need no rescue and she's okay.  
Yeah, she's got a laugh in her face  
She don't need no rescue and she's okay.  
No SOS me then rescue when she's finally there  
No SOS me then rescue when she's finally there, yeah  
She's got a laugh in her face,  
She don't need no rescue and she's okay That girl is you yeah and that girl is me  
That girl is strong girl and don't let you see  
That girl is you yeah and that girl is me  
That girl is strong girl and don't let you see Chorus:  
Yeah, she's got light in her face  
She don't need no rescue and she's okay.  
Yeah, she's got a laugh in her face  
She don't need no rescue and she's okay.

No SOS me then rescue when she's finally there  
No SOS me then rescue when she's finally there, yeah  
She's got a laugh in her face,  
She don't need no rescue and she's okay
