

The Abyss

Pre Mortem

The future is predestined
The writing's on the wall
Can you see the telltale signs?
The turning point has come
 Here it comes
 Suicide bombs exploding
 As missiles crack the sky
 Earthquakes and tsunamis
 Signal the end of time
 In the here
 And the now
 Feel the fear

It's all coming down
The world is turning, turning inside out
 The world is burning, it's burning on somehow
 But it's broken... it's burning
 Goin' up in flames!
Can we change the path we're on
 Somehow turn the tide
 Smother the all-consuming fire
Before the world collides
 With the here
 And the now
 Feel the fear

All coming down
The world is turning, turning inside out
 The world is burning, it's burning on somehow
 The world is turning, turning inside out
 The world is burning, it's burning on somehow
 But it's broken... it's burning
 Goin' up in flames!
Do you remember bluer skies
 Happy days and simpler times
 Seems not that long ago
 But so far away
 Will it ever be the same again?
 I don't think so'
Cause it's here
 And it's now
 Feel the fear

All coming down
The world is turning, turning inside out
 The world is burning, it's burning on somehow
 But it's broken... it's burning
 Goin' up in flames
 Up in flames
