

Blue Collar Lullaby

Coalesce

As long as there is still breath
Left in your body, friend
Just move, just move You'll sleep some other day
Some other time, some other place
Just pray that your hands don't break We walk with hard hearts and sharper tongues
The price we paid, paid in strength We walk with hard hearts and sharper tongues
The price we paid, paid in strength We walk with hard hearts and sharper tongues
The price we paid, paid in strength Run, fight, run We walk with hard hearts and sharper tongues
The price we paid, paid in strength
